CRC Hawai‘i Event Log

Boat:_____ Date:_____/_____/_____ Crew:_____ Page____ of _____
DD MMM YYYY (full names of new crew, initials of others, circle recorder)

Event	Time (24 h)	Lat and Long (dd.ddddd/ddd.ddddd) (write waypoint # in left margin)	Sighting #, species, sea state, sample # & if squid, #/type birds present, comments	km

Event Codes (note time and waypoint for all events):
01 – Begin survey day (note sea state/weather) **on effort**
02 – Go off effort (**note km**)
03 – Go on effort (**note km**)
04 – Sea State/Weather (Beaufort, swell height, **note km**)
05 – Sighting, note sighting #, species**, km**
06 – Sample collection (note sample type/ #, for squid note birds, photos)
07 – Tagging (specify tag type, e.g., Spot, Mk10a and PTT ID
08 – End of sighting, note **km**
09 – Unusual bird sighting (note species, group size, camera/end frame)
10 – Other (e.g., tag recovery, net retrieval, etc)
11 –End of survey day (**note total km**)_____.

RE-SET KM ON GPS at start of day. Samples (biopsy, prey, squid, fecal) all get consecutive sample numbers (sample # code = RWB*YYYYMMMDD*.## e.g., RWB2014NOV15.04)

Rev. 01NOV14 – SEE BACK OF PAGE FOR END OF DAY INFORMATION TO RECORD - Record initials after data entry:_____

Date:_____/_____/_____ Vessel:_____ Page _____ of _____
DD MMM YYYY

Event	Time (24 h)	Lat and Long (dd.ddddd/ddd.ddddd) (write waypoint # in left margin)	Sighting #, species, sea state, sample and if squid, #/type birds present, comments	km

humpbacks not approached - Recorded systematically – Birds yes / no

	B0	B1	B2	B3	B4	B5	B6	Total	# flying fish -	# game fish -
# hrs									# bait schools -	# tour vessels -
# km									# fishing vessels -	

Event Codes (note time and waypoint # for all events):
01 – Begin survey day (note sea state/weather) **on effort**
02 – Go off effort (**note km**)
03 – Go on effort (**note km**)
04 – Sea State/Weather (Beaufort, swell height, **note km**)
05 – Sighting, note sighting #, species**, km**
06 – Sample collected (note sample #/type, for squid note birds, photos)
07 – Tagging (specify tag type (e.g., Spot5, Mk10a) and PTT ID
08 – End of sighting, note **km**
09 – Unusual bird sighting (note species, group size, camera/frame)
10 – Other (e.g., tag recovery, net retrieval, etc)
11 - End of survey day (**note total km**) .

Sample collection (biopsy, squid, prey, fecal) receive consecutive sample numbers (sample # code = RWB*YYYYMMMDD*.## e.g., RWB2014NOV15.04)

Rev 01 NOV 2014 **Record initials after data entry:**_____
